All Exams — Master Ledger

#	Subject	Chapters	Date	Score	%	MCQ	Grade
1	Biology	Ch 1-6	2026-04-03	52 / 65	80.0%	11/12	A
2	Physics	Ch 1-2	2026-04-07	63.5 / 65	97.7%	12/12	A+
3	Physics	Ch 3-4, 9	2026-04-10	62 / 65	95.4%	12/12	A+
4	Chemistry	Ch 1-2	2026-04-12	64 / 65	98.5%	12/12	A+
5	Chemistry	Ch 3-5	2026-04-17	59.5 / 65	91.5%	12/12	A+
6 NEW	Math	Units 1-2	2026-04-18	65 / 65	100%	12/12	A+
Cumulative				366 / 390	93.8%	71/72	A+

MCQ streak: 5 consecutive perfect 12/12 scores (Phys-01, Phys-02, Chem-01, Chem-02, Math-01). Only one miss in 72 total MCQs across all exams.

Subject-by-Subject

Math NEW LEADER

1 exam attempted, 100% first attempt. Perfect score on Units 1-2 (Real Numbers, Logarithms). No deductions anywhere — every property, radical, log law, and digit-count rule applied cleanly. **Strongest first-attempt score across all 4 subjects.** Exam-02 (Ch 3-5) and Exam-03 (Ch 4, 5, 7) still untouched; both are sitting in the repo ready for future attempts.

Chemistry

2 exams attempted, avg 95.0%. Exam-01 (98.5%) > Exam-02 (91.5%). All MCQs perfect across both. Exam-02 exposed small areas: **periodic trends down a group**, **Rutherford's 3 defects**, and **isotope uses**. Both attempts A+.

Physics

2 exams attempted, avg 96.5%. Both A+. MCQs 24/24 perfect. Small marks lost on one or two long-answer details per exam. No consistent weakness pattern.

Biology

1 exam attempted. 80% — Seemab's lowest score so far. Covered Ch 1-6. Early in term. Focus area for the next revision cycle. A re-attempt once Ch 7 (Metabolism) finishes in class would likely lift this significantly.

Cross-Exam Patterns

Strengths (consistent across all 6 exams):

- **MCQ mastery** — 71/72 = 98.6%. Five consecutive perfect 12/12s.
- **Definitions, properties, formulas** — recalls and writes them cleanly with textbook precision.
- **Tabular comparisons** — consistently clear and well-organized.
- **Verification discipline** — demonstrated in Math Q.2(v) (substituted back into the original equation to check solution).

Observed improvement:

- **Finishing every sub-part** — the "rushed endings" pattern flagged in Chem exam-02 (2026-04-17) is **gone** in Math exam-01 (2026-04-18). Every sub-letter of every question got an answer. One-day improvement.
- **Direction of trends / signs of things** — no atomic-size / Cl-Cl / label-swap errors this time. Small mistakes from the prior exam didn't repeat.

Trend

Average trajectory: 92.9% (v3) → 92.6% (v4) → **93.8% (v5)**. The first perfect score pulls the average up nearly a full point and reestablishes upward momentum. Math joins the A+ band with authority.

Next watchlist:

- **Biology re-attempt** — still pulling the average down; a second Bio attempt covering the same chapters or Ch 1-8 could reshape the subject profile significantly.
- **Math exam-02 and exam-03** — both papers are sitting ready. Exam-03 covers Units 4, 5, 7 (which Seemab already studied in Class 8 per memory).
- **Physics re-attempt** — consistent A+ but no fresh attempt since 2026-04-10.

Version history: v1 → v2 (2026-04-10, 3 exams) → v3 (2026-04-12, 4 exams) → v4 (2026-04-17, 5 exams) → **v5 (2026-04-18, 6 exams)**
