

SEEMAB, CLASS 9 (FEDERAL BOARD)
Biology exam-17 (Version B): Detailed Marking Report

Chapters 1 to 7 (complete) | 38 marks, no choices | attempted and marked 19 September 2026 |
independently deep-checked

33/38 TOTAL	86.8% PERCENTAGE	A GRADE	9/10 SECTION A	9/12 SECTION B	15/16 SECTION C
-----------------------	----------------------------	-------------------	--------------------------	--------------------------	---------------------------

The short version. Seemab scored 33 out of 38 (86.8%, A) on her second Tarjuma-tul-Quran paper, and on the first one to include Surah Taha, taught only this month. Section C was nearly perfect: the Musa and Firaun answer took full marks, 8/8. The MCQs were 9/10. All five lost marks sit in Section B, and they share one cause: where the question asks for a list the book prints (the three stages, the two virtues, the khulasa), she writes good material in her own framing instead of the book's list.

SECTION A: Multiple Choice (9 / 10)

Q	Topic	Hers	Key	Source and note
1	Who accepted Islam on hearing Surah Taha	A (Hazrat Usman RA)	B (Hazrat Umar Farooq RA)	Wrong. Surah Taha تعارف, book p.18. A genuine content slip, not a numbering or scanning artefact
2	Year of the first hijrat to Habsha	D	D	Fifth year of nabuwwat, Surah Maryam lesson, p.4
3	Why Surah Taha is so named	A	A	Opens with the حروف مقطعات, p.18
4	Luqman's standing among the Arabs	C	C	حكيم و دانا, p.137
5	Hajj began in the time of which prophet	A	A	Hazrat Ibrahim AS, p.48
6	Sulaiman AS was the son of	B	B	Hazrat Dawood AS, p.88
7	How to deal with those who deny the truth	D	D	صبر و تحمل, p.18 to 19
8	The Prophet ﷺ was sent as a mercy for	A	A	All the worlds, Al-Anbiya مضامين, p.34
9	Allah makes the patient and firm believers	C	C	Guides of people, As-Sajdah نكات, p.146
10	Why Al-Hajj is called a unique surah	B	B	Part Madani, part Makki, p.48

Checks run on the single loss: no off-by-one shift (her 2 to 10 match the key exactly), no right-to-left reversal (that would break six other items), no crossed-out first answer at 300 DPI, and no letter confusion, since she writes Latin letters.

SECTION B: Short Questions (9 / 12)

Q.2 (i) Surah Taha: three stages of Musa AS and the khulasa: 3 / 4

Her stages: نبوت سے پہلے کا زمانہ: جب حضرت موسیٰ مدین سے واپس آرہے تھے اور کوہ طور پر اللہ (۱) تعالیٰ سے ہم کلام ہوئے۔ (۲) فرعون کے پاس نبوت کا منصب۔ (۳) فرعون اور جادو گروں کا مقابلہ۔
The book's three are: birth up to the hijrat to Madyan; Madyan to the Sinai desert;

from then until his passing. Her first names مدین and Mount Tur, which is the book's second stage, and her second and third together cover the book's third. The book's first stage is missing: 2 of 3.

Khulasa, full mark: اس سورت میں توحید، رسالت اور آخرت کا بیان ہے۔ حضرت موسیٰ اور فرعون کا واقعہ، جادو گروں کا ایمان لانا اور فرعون کا انجام بیان کیا گیا ہے۔

Q.2 (ii) Four نکات علمی و عملی of Surah An-Naml: 4 / 4

All four land on the book's list: gratitude for Allah's blessings as Hazrat Sulaiman showed it; all mental and physical abilities being Allah's favour; those calling to the deen must keep warning people through the Quran; and every deed being known to Allah and decided on the Day of Qiyamah.

Q.2 (iii) Two virtues of Surah As-Sajdah and the khulasa: 2 / 4

The آپ ﷺ فجر کی نماز کی پہلی رکعت میں سورۃ السجدہ پڑھا کرتے تھے۔ (1): Virtue credited
book adds دن جمعہ کے دن, but the virtue is recognisable.

سورۃ السجدہ کی تلاوت کرنے والے کے لیے اس کی فضیلت اور اجر کا ذکر: Virtue refused (0):
This says a virtue exists without naming one. The one she was a step away from: the Prophet ﷺ would not sleep until he had recited As-Sajdah and Al-Mulk.

Khulasa (1 of 2): she has the beliefs half (آخرت and توحید) but not the second half, answering the objections of the disbelievers. What she wrote instead (تخلیق, قدرت, انسان, نیک و بد لوگوں کا انجام) is real book content, but from the مضامین rather than the خلاصہ the question asked for.

SECTION C: Long Questions (15 / 16)**Q.3 Musa AS and Firaun in the light of Surah Taha: 8 / 8**

حضرت موسیٰ کو فرعون کی طرف بھیجنا، فرعون کا انکار، Organised under her own headings:
Eight of the nine key points are there, including the two duas (ان کا سینہ کھول دیں اور ان کی زبان کی گرہ کھول دیں) and Hazrat Harun as helper, the staff and the shining hand, the magicians' ropes, their faith and Firaun's threats, and the sea closing over Firaun and his army. All three parts the question named are reached, and there is no out-of-scope material.

Q.4 Luqman's advice to his son: 7 / 8

Credited: no shirk (ایسا کرنا بہت بڑا ظلم ہے); the mustard seed, which most students drop (رائی کے دانے کے برابر عمل بھی اللہ تعالیٰ کی گرفت سے نہیں بچ سکتا); establishing salah; enjoining good and forbidding evil; patience in hardship; not walking with arrogance; moderation in gait.

Not credited, nothing deducted: kindness to parents, which sits in Luqman's passage but is Allah's own command (ayat 14 and 15), not his advice.

Missing: dealing well with people and not turning your face away, and keeping your voice low. Two of her headings collapse onto the single book item "enjoin good and forbid evil", which is what left her two points short of eight.

Summary of lost marks

Where marks went	Marks	Kind
MCQ 1	1	Hazrat Usman RA instead of Hazrat Umar Farooq RA
Q.2 (i) three stages of Musa AS	1	The book's first stage (birth up to the hijrat to Madyan) is missing; she started from the return from Madyan
Q.2 (iii) As-Sajdah	2	One virtue is circular ("its virtue is mentioned in ahadith") and the khulasa half about answering the disbelievers' objections is absent
Q.4 Luqman's advice	1	Seven distinct advices; two of her headings collapse onto one book item, so she finished two short of eight

Marking method

Marked from the 6-page CamScanner scan at 110 DPI with 300 DPI re-reads of the MCQ list and the faint lines. A separate background agent marked the whole paper blind, re-derived all ten MCQ answers from the textbook, and reached the same 33/38 with the same per-part marks. No question or key defect was found in this paper.

One habit worth fixing for the scanner: when a line runs out of room she squeezes the overflow vertically into the right margin of the next line. Carrying on normally on the next line would make her scans much easier to read.
