

Biology — Seemab's Progress Tracker

Class 9 | SSC-I Board Preparation

Last updated: 4 April 2026

Exam Results Summary

Exam	Chapters	Date	Section	Score	%	Weak Areas
exam-01-ch1-6	1-6	3 Apr 2026	A — MCQs	12/12	100%	—
			B — Short Qs	28/33	84.8%	Purines/pyrimidines (Ch 6), carb headers (Ch 6), kingdom detail (Ch 2)
			C — Long Qs	12/20	60%	Q.5 not attempted (time), protein secondary structure (Ch 6)
			TOTAL	52/65	80%	Grade A

Chapter-wise Performance

Chapter	Topic	MCQ	Short	Long	Overall
Ch 1	Science of Biology	2/2	9/9	—	100%
Ch 2	Biodiversity	4/4	4/6	—	80%
Ch 3	The Cell	3/3	5.5/6	—	94%
Ch 5	Tissues, Organs, Organ Systems	—	3/3	0/5	37.5%
Ch 6	Molecular Biology	2/2	4/6	7.5/10	75%

Note: Ch 4 (Cell Cycle) was not directly tested in this paper. Ch 1 includes Q.3 OR (biological method/malaria, 4.5/5). Ch 5 Q.5 was not attempted.

Cumulative Weakness Log

Time management (Section C): Q.5 not attempted — cost 5 marks. Must practice completing all long answers within time.
Purines vs pyrimidines ring structures (Ch 6): Cross-outs show confusion. Revise: purines = double ring (A, G), pyrimidines = single ring (C, T, U).
Carbohydrate table headers (Ch 6): Polysaccharide and disaccharide columns swapped. Double-check column labels.
Protein secondary structure (Ch 6): Must name alpha helix and beta pleated sheet specifically.
Missing textbook examples: Need to memorise specific examples for kingdoms, vectors, scientists, protein functions.

Strong Areas

MCQ mastery — 12/12 perfect score, strong conceptual foundation
Biological method — systematic coverage of all steps (Ch 1)
Cell biology — prokaryotic/eukaryotic comparison excellent (Ch 3)
Tissue types — all four animal tissues with functions and examples (Ch 5)
RNA & central dogma — comprehensive coverage of transcription/translation (Ch 6)
Careers in biology — detailed descriptions of biotechnology and medicine (Ch 1)

Notes

- First full biology exam tracked (3 Apr 2026). All three sections marked.
- 52/65 (80%, Grade A) — strong result. With time management fix, potential 57-60/65 (A+).
- Main priority: practice completing Section C within time to avoid leaving questions unanswered.
