

Biology Exam 11: Per-Exam Overview

Chapters 1-7 (Full Syllabus) | Seemab Ali | Federal Board (FBISE) Class 9 | Attempt: 2026-07-16 | Version 5 | Total Marks: 65

10/12 SECTION A (MCQS)	26.9/33 SECTION B (SHORT)	19.5/20 SECTION C (LONG)	56.4/65 TOTAL, 86.8%	A GRADE
---------------------------	------------------------------	-----------------------------	-------------------------	------------

Section Breakdown		
Section A: MCQs (10/12)		83.3%
Section B: Short Questions (26.9/33)		81.5%
Section C: Long Questions (19.5/20)		97.5%
Overall (56.4/65)		86.8%

Strengths

- Section C was the strongest part of the paper (19.5/20, 97.5%) — Biology's best long-question result yet
- Leaf transverse-section diagram: correct structure with 8 accurate labels, well past the required 6
- Animal cell diagram (nucleus, mitochondria, Golgi apparatus, ribosomes) fully correct
- Eight taxonomic ranks and seven characteristics of life both listed perfectly
- Fat-soluble vitamins and steroid structure answered almost word-for-word against the key

Areas for Revision

- Liver cells: wrote "without cytoplasmic organelles" instead of "with an abundance of" — a direct reversal of the reason liver cells are metabolically active
- Main/OR mix-up on the mitotic phase question: answered the OR's first half correctly, then supplied MAIN-question content (reasons for cell division) instead of the OR's required sub-processes
- Leaf epidermis question: only the upper epidermis half was answered; the lower epidermis / stomata / guard cells half was skipped entirely
- Antibodies: correctly named their source (white blood cells) but never stated their function (provide immunity against germs)
- MCQ dropped to 10/12, breaking a 13-exam streak of 12/12 in Biology; both misses (biodiversity importance, cytoplasm composition) confirmed genuine on re-check, not a scan error

Comparison vs Previous Biology Attempts

Date	Exam	MCQ	Total	%	Grade
3 Apr 2026	exam-01-ch1-6	11/12	52/65	80.0%	A
30 Apr 2026	exam-02-ch7 (1st)	12/12	60.5/65	93.1%	A
2 May 2026	exam-02-ch7 (re-sit)	12/12	65/65	100%	A+
8 Jun 2026	exam-03-ch4	12/12	62.5/65	96.2%	A+
23 Jun 2026	exam-07-ch1-7	12/12	57.5/65	88.5%	A

29 Jun 2026	exam-08-ch1-7	12/12	54.5/65	83.8%	A
6 Jul 2026	exam-09-ch1-7	12/12	61.25/65	94.2%	A+
16 Jul 2026	exam-11-ch1-7 (this exam)	10/12	56.4/65	86.8%	A

A fresh, previously-unseen full-syllabus Ch1-7 paper (exam-11, Version 5). This attempt lands between exam-08 (83.8%) and exam-07 (88.5%) among Biology's four comprehensive Ch1-7 papers, with Section C now the strongest section on the paper (97.5%, Biology's best long-question result to date). The MCQ result (10/12) is Biology's weakest bubble-panel score so far, ending a 13-exam run of 12/12; it was re-verified at high zoom and confirmed genuine. The main drag on the score is Section B (81.5%), driven by a main/OR mix-up on the cell-division question and one two-part question answered only half way — both flagged clearly for the next attempt.
