Momentum

The three papers banked on this card average 96.1%. Islamiat moved further in one paper (+6.6 points) than any subject has moved all year, on the back of a two day repair loop after its weakest result.

One thing to fix before the board exam

Her letter
x
reads as
n
: "onide" for oxide, "enothermic" for exothermic. The chemistry is right every time; only the letterform is wrong. Two clearly crossing strokes fixes it.
