

Seemab — Cumulative Progress Overview

All Exams | Class 9 Federal Board (FBISE) | Version 9 — 2026-05-12 (corrected)
10 attempts total | 4 subjects | 2 perfect scores | MCQ record: 131/132 (99.2%) | 10 consecutive perfect MCQ scores

10	87.6%	131/132	2	10	A+
TOTAL ATTEMPTS	OVERALL AVERAGE	MCQ RECORD	PERFECT 65/65	CONSEC. MCQ 12/12	DOMINANT GRADE

All Exam Attempts — Complete Record

#	Date	Subject	Exam	Score	%	MCQ	Sec B	Sec C	Grade	Notes
1	03 Apr 2026	Biology	exam-01 Ch1-6	52/65	80.0%	11/12	26/33	15/20	A	Section C Q5 not attempted (−5)
2	07 Apr 2026	Physics	exam-01 Ch1-2	63.5/65	97.7%	12/12	32/33	19.5/20	A+	Near-perfect; minor Sec B deduction
3	10 Apr 2026	Physics	exam-02 Ch3-4-9	62/65	95.4%	12/12	32/33	18/20	A+	Strong; minor Sec C deductions
4	12 Apr 2026	Chemistry	exam-01 Ch1-2	64/65	98.5%	12/12	33/33	19/20	A+	Near-perfect; 1 mark off Sec C
5	17 Apr 2026	Chemistry	exam-02 Ch3-5	59.5/65	91.5%	12/12	29.5/33	18/20	A+	Periodic trends direction; bonding gaps
6	18 Apr 2026	Math	exam-01 Ch1-2	65/65	100%	12/12	33/33	20/20	A+	PERFECT 1st ever 100%
7	22 Apr 2026	Math	exam-03 Ch4-5-7	60.5/65	93.1%	12/12	30.5/33	18/20	A+	(2x) ² →4x ² error; no number line
8	30 Apr 2026	Biology	exam-02 Ch7	60.5/65	93.1%	12/12	29.5/33	19/20	A	Allosteric site unnamed; ETC location missing
9	02 May 2026	Biology	exam-02 Ch7 (Re-sit)	65/65	100%	12/12	33/33	20/20	A+	PERFECT All weaknesses fixed
10	12 May 2026	Chemistry	exam-03 Ch6 CORRECTED	57.5/65	88.5%	12/12	32/33	13.5/20	A+	Ionic eq charges missing; atoms=moles×N_A error; C=12 not 14; Section C weakest of all attempts
TOTALS / AVERAGES				569.5/650	87.6%	131/132	311/330	181/200	Overall avg = 87.6%	

Subject Averages (Best Attempt Per Exam)

Math	96.5% — 2 exams (100%, 93.1%)	96.5%
Physics	96.5% — 2 exams (97.7%, 95.4%)	96.5%
Chemistry	92.8% — 3 exams (98.5%, 91.5%, 88.5%)	92.8%
Biology	90.0% — 2 exams (80.0%, 100% re-sit)	90.0%

Note: Biology uses best score per exam (100% re-sit replaces 93.1% Apr sit). Chemistry average updated to 92.8% with corrected Chem-03 score (was 95.6% under wrong 46-mark rubric).

Score Trajectory (Chronological)

Attempt	1	2	3	4	5	6	7	8	9	10
Date	3 Apr	7 Apr	10 Apr	12 Apr	17 Apr	18 Apr	22 Apr	30 Apr	2 May	12 May
Subject	Bio	Phys	Phys	Chem	Chem	Math	Math	Bio	Bio	Chem
%	80.0%	97.7%	95.4%	98.5%	91.5%	100%	93.1%	93.1%	100%	88.5%

Trajectory: 80% start (Bio Ch1-6) → rapid climb → two perfect scores (Math-01, Bio-02 re-sit). Attempt 10 (Chem-03) at 88.5% is lowest since attempt 1 — driven by ionic equation and atom-count errors in Section C. Running average: **87.6%** after 10 attempts.

MCQ Record Analysis			
Exam	MCQ Score	Any Error?	Detail
Bio exam-01	11/12	Yes	Q5 — Forensic biology = analytical, not environmental
Physics exam-01	12/12	No	Perfect
Physics exam-02	12/12	No	Perfect
Chem exam-01	12/12	No	Perfect
Chem exam-02	12/12	No	Perfect
Math exam-01	12/12	No	Perfect
Math exam-03	12/12	No	Perfect
Bio exam-02 (Apr)	12/12	No	Perfect
Bio exam-02 (May)	12/12	No	Perfect
Chem exam-03	12/12	No	Perfect — 10th consecutive
TOTAL	131/132	1 error (Bio-01 only)	99.2% MCQ accuracy across 10 exams

Achievement Milestones

- 2026-04-18:** First ever perfect score — Math exam-01 (65/65, 100%)
- 2026-05-02:** Second perfect score — Biology exam-02 Ch7 re-sit (65/65, 100%)
- 2026-05-02:** 8 consecutive perfect MCQ scores (Physics-01 through Bio-02 re-sit)
- 2026-05-02:** MCQ record reached 107/108 = 99.1% across 9 exams
- 2026-05-12:** 10th consecutive perfect MCQ score — Chem exam-03 Ch6 (12/12). MCQ record now 131/132 = 99.2% across 10 exams
- 2026-05-13 (corrected):** Chem exam-03 re-marked under correct 65-mark rubric (was filed at 44.5/46 under wrong "best 8 of 11" rubric). Corrected score: 57.5/65 = 88.5%. Section C (67.5%) now identified as primary Chemistry weakness.

Recurring Patterns

Consistent Strengths	Active Weakness Watch List
- MCQ mastery — 99.2% accuracy (131/132) - Definitions and formulas — textbook precision - Mass-mole-mass conversions (automatic across all Chem exams) - Tabular comparison layouts — always clean - Balancing equations (coefficients, state symbols) - Mechanism-behind-concepts (now consistent in Biology) - Verification discipline in Math - ETC electron carrier ratios (NADH→3ATP, FADH₂→2ATP) - pH values for enzymes (pepsin 2.0, trypsin 8.0)	Chemistry: atoms = moles × N_A, not molar mass × N_A — 3 consecutive chem exams Chemistry: Ion charges + (aq) state symbols in ionic equations — Q2(ix) and Q3(iii) Chem-03 Chemistry: Net ionic H₂ is a product (gas), not a reactant bonding with metal — MgH₂/ZnH₂ errors Chemistry: C=12 not 14; N=14 not 12 — adjacent on periodic table Chemistry: Empirical formula validity (non-integer subscripts invalid) Math: (2x)²→4x² not 2x²; number-line sketch for inequalities Periodic trends direction (Chemistry): One occurrence Chem-02; watch

Version History

Version	Date	Exams Covered	Avg at Time	Key Addition
v1	—	1 (Bio-01)	80.0%	Initial tracker
v2	2026-04-10	3 (Bio+Phys)	91.0%	Physics exams added
v3	2026-04-12	4 (+Chem-01)	92.9%	Chemistry exam-01
v4	2026-04-17	5 (+Chem-02)	92.6%	Chemistry exam-02; periodic trends flag

v5	2026-04-18	6 (+Math-01)	93.9%	First perfect score — Math exam-01
v6	2026-04-22	7 (+Math-03)	93.7%	Math exam-03; squaring error pattern
v7	2026-04-30	8 (+Bio-02 Apr)	93.7%	Bio-02 first sit; allosteric site and ETC gaps
v8	2026-05-02	9 (+Bio-02 May re-sit)	94.4%	Second perfect score; all Bio-02 weaknesses corrected; 8 consec. perfect MCQs
v9	2026-05-12 (corrected 2026-05-13)	10 (+Chem-03 Ch6)	87.6%	Chem-03 re-marked under correct 65-mark rubric (was 44.5/46); corrected to 57.5/65 = 88.5%; 10 consec. perfect MCQs; average recalculated
