### Mathematics exam-18: the old mistakes are mostly gone, the last line is not

Mathematics exam-18 came in at **32.5/38 (85.5%, A)**: MCQs 7/10, Section B 10.5/12, Section C 15/16. It was sent in the morning as a 50-mark school-mirror paper and replaced the same afternoon by a 38-mark Version B with three short questions instead of six, and that is the version she sat. With 28 of the 38 marks in written work, the percentage sits below what her written score of 25.5/28 (91%) alone would suggest.

The paper re-tested ten of her documented Maths mistakes, and **seven came back fixed**. She factorized both a sum and a difference of cubes with the right signs (missed on exam-15 and exam-16), evaluated  $|-9| - |-4|$  correctly (exam-17 read the bars as brackets), kept the minus on an inequality's lower bound, named the additive property (exam-16 said transitive), verified both roots of an absolute-value equation, wrote the collinear conclusion twice, and put the  $\pm$  on a square root. The eight-mark lamp-post question was perfect, with a written conclusion on every part.

**Not fixed**: the ordered-pair question (she substituted  $a = 5$  correctly, then boxed "a: 9", exactly the exam-16 slip) and naming the laws of logarithms (right value for  $\log 72$ , no law named). The other lost marks are all last steps: the characteristic of  $\log 0.0567$  set up but never stated, a square root finished with a stray square, one MCQ solved correctly and copied as the wrong letter, and one MCQ skipped because her answer numbering slipped.

Two notes for Atif. She wrote beside MCQ 1 that she solved it "in the calculator", which the paper does not allow and which matters because radical addition was her exam-17 gap. And on two MCQs her only reason was that the other options "doesn't make sense"; the questions where she wrote real working came out right.

### Priorities for the next fortnight

1. **Finish the last line, and match it to the question.** Characteristic stated, square root without the square, the letter  $a$  not the element, the MCQ letter checked against the working. This is now the single biggest source of her lost marks in Maths and Chemistry.
2. Name the law or property beside each step: product law, power law. The inequality properties are now done well.
3. Number MCQ answers by the paper and check all ten are present before handing in.
4. No calculator in practice: radicals by hand ( $\sqrt{98} = 7\sqrt{2}$ ).
5. Carried forward from v61: state symbols and "using the data" in Chemistry; the catalyst table as one unit; group from configuration (s block valence electrons, p block + 10); a geometry box for Unit 10; Islamiat Bab 3 Seerat facts; Tarjuma-tul-Quran, write the Arabic with the meaning; Biology Q12/Q17 recall.

MCQ: 17/30 (56.7%). Unchanged since v60.

### Marking method

Mathematics exam-18 was marked from the 9-page CamScanner scan against Version B, confirmed from her Section B numbering. Mark-deciding items were re-read at 300 DPI, and an independent re-verification re-derived all ten MCQ answers from the printed paper, mapped her answers to questions by their working rather than her labels (her labels skipped a number), ran a shift guard, and re-marked every written part. The two passes agreed on all ten MCQ readings; the re-verification scored 2(i)(a) at 2 rather than 2.5

under the key’s own rule, and that is the published mark. The v61 figures for the other five subjects are carried forward exactly as published. Built after confirming with both live class-9 sessions that no other attempt was being marked, so this version is complete.

**Version history (most recent)**

| Version | Date        | Headline                                                                                          |
|---------|-------------|---------------------------------------------------------------------------------------------------|
| v60     | 14 Sep 2026 | All three 13 September attempts final: Quran 43/50, Biology exam-16 34/36, Islamiat exam-02 30/46 |
| v61     | 14 Sep 2026 | Chemistry exam-22 added at 42/50; six of nine re-set chemistry errors fixed                       |
| v62     | 15 Sep 2026 | Mathematics exam-18 (Version B) added at 32.5/38; seven of ten re-set maths mistakes fixed        |

Full lineage v1 through v62 is retained, unedited, in seemab-reports/; no prior version is ever overwritten or deleted.
