Biology exam-17: the paper she asked for, 36/38

Biology exam-17 Version B came in at 36/38 (94.7%, A+): MCQs 10/10, Section B 11/12, Section C 15/16. It was the first paper on the newly finished 7.7 Photosynthesis and 7.8 Respiration. Version 1 of this paper, sent the same morning, used scenario questions on those sections only; Seemab sent a voice note asking for all chapters in textbook style, Atif agreed, and Version B was sent the same evening and attempted within hours.

The light dependent reactions (describe and sketch, 8 marks) were perfect, the plastids and aerobic/anaerobic questions were complete, and the MCQ numbering and letters stayed clean for a third paper running. The 2 marks lost: a “6” in front of glucose in the photosynthesis equation, “Ethyl” without “alcohol”, and a meiosis II difference that compared mitosis with meiosis as a whole.

Priorities for the next fortnight

- 1. **Equations:** read every coefficient back after writing (one glucose in photosynthesis) and write product names in full (ethyl alcohol).
- 2. **Answer the exact comparison asked:** meiosis II vs mitosis, not meiosis vs mitosis.
- 3. Units that match the quantity and copying the right value into the formula (Physics).
- 4. “Show that”, “hence”, “verify”: finish with a written sentence.
- 5. Carried forward: Maths ordered pairs and log-law names; Chemistry state symbols and the catalyst table; Islamiat Bab 3 Seerat facts; Tarjuma-tul-Quran meanings.

Standing change from 17 September: Section B and C questions follow the textbook exercise style, with at most one activity per paper, and comprehensive papers cover every taught chapter (Seemab’s request, confirmed by Atif).

Marking method

Biology exam-17 Version B was marked from the 7-page CamScanner scan; deciding items were re-read at 300 DPI, and an independent background re-mark re-derived all ten MCQ answers, ran a shift guard and re-marked every part. It lowered 2(i)(a) by half a mark (the glucose coefficient), which was accepted: 36/38. The v63 figures for the other five subjects are carried forward exactly as published. No other class-9 session was running, so this version is complete.

Version history (most recent)
