

PHYSICS — Exam 03 (Unit 5: Pressure & Deformation)

SINGLE ATTEMPT

Seemab Atif | Class 9 | FBISE | Date: 2026-05-18 | Report generated: 2026-05-18

A+
100%

PERFECT SCORE — 65 / 65 (100%)

Third Physics exam, third consecutive perfect Physics MCQ run. Physics subject average now 98.3% across 3 exams.

TOTAL SCORE

65/65

Max 65

GRADE

A+

100%

SECTION A

12/12

MCQs — 100%

SECTION B

33/33

Short — 100%

SECTION C

20/20

Long — 100%

Section Breakdown

Section A (MCQ)	12/12	100%
Section B (Short)	33/33	100%
Section C (Long)	20/20	100%
TOTAL	65/65	100%

Strengths

Conceptual precision in every definition

Elasticity, elastic limit, Hooke's Law, pressure, atmospheric pressure, Pascal's Principle — all stated with textbook-grade wording across 11 short questions and 4 long questions.

Unit conversions shown for every calculation

cm to m, km to m, Pa to kPa/MPa — explicitly written in working every time. No implicit shortcuts.

Mechanism-based reasoning in application questions

Straw and syringe (Q.2(v)) answers describe the pressure differential mechanism, not just the outcome. Same quality in Q.3(ii) atmospheric pressure weather variation.

Force-extension graph with all four points (Q.3(i))

A, B, C, D all correctly labeled. Many students omit the ultimate stress point C or confuse it with D.

Active self-correction (Q.3(iv) hydraulic lift)

Caught a direction error in the hydraulic lift formula, crossed it out, and arrived at the correct answer $F_1 = 39.2\text{ N}$.

11th consecutive perfect MCQ score

Seemab has now answered 132 consecutive MCQs correctly across 11 exams. MCQ mastery is completely consistent.

Areas to Watch

Chemistry Section C remains the weakest link (13.5/20 in Chem-03)

This Physics paper shows Seemab can score perfectly across all sections. The Section C ionic equation errors in Chem-03 (net ionic products, ion charges) should be the main revision target before the next Chemistry exam.

Comparison — Physics Exam History

Exam	Date	Units	MCQ	Section B	Section C	Total	%
exam-01-ch1-2	2026-04-07	1, 2	12/12	32.5/33	19/20	63.5/65	97.7%
exam-02-ch3-4-9	2026-04-10	3, 4, 9	12/12	32/33	18/20	62/65	95.4%
exam-03-ch5 (THIS)	2026-05-18	5	12/12	33/33	20/20	65/65	100%

Physics subject average: 98.3% (190.5/195 across 3 exams). Trajectory: 97.7% → 95.4% → 100%. The dip in exam-02 reversed sharply in exam-03.
