MCQ OVERALL (LAST 4: 48/48)

All Attempts — Complete Record

#	Date	Subject	Exam	Chapters	MCQ	Sec B	Sec C	Total	%	Grade
1	3 Apr 2026	Biology	exam-01-ch1-6	Ch 1-6	11/12	26/33	15/20	52/65	80.0%	A
2	7 Apr 2026	Physics	exam-01-ch1-2	Ch 1-2	12/12	32.5/33	19/20	63.5/65	97.7%	A+
3	10 Apr 2026	Physics	exam-02-ch3-4-9	Ch 3,4,9	12/12	31/33	19/20	62/65	95.4%	A+
4	12 Apr 2026	Chemistry	exam-01-ch1-2	Ch 1-2	12/12	31/33	21/20	64/65	98.5%	A+
5	17 Apr 2026	Chemistry	exam-02-ch3-5	Ch 3-5	12/12	28/33	19.5/20	59.5/65	91.5%	A+
6	18 Apr 2026	Math	exam-01-ch1-2	Ch 1-2	12/12	33/33	20/20	65/65	100%	A+
7	22 Apr 2026	Math	exam-03-ch4-5-7	Ch 4,5,7	12/12	29.5/33	19/20	60.5/65	93.1%	A+
8	30 Apr 2026	Biology	exam-02-ch7	Ch 7	12/12	30.5/33	18/20	60.5/65	93.1%	A
9	2 May 2026	Biology	exam-02-ch7 (re-sit)	Ch 7	12/12	33/33	20/20	65/65	100%	A+
10	12 May 2026	Chemistry	exam-03-ch6	Ch 6	12/12	27.5/33	18/20	57.5/65	88.5%	A+
11	18 May 2026	Physics	exam-03-ch5	Ch 5	12/12	33/33	20/20	65/65	100%	A+
12	25 May 2026	Math	exam-04-ch4	Ch 4	12/12	26/33	19/20	57/65	87.7%	A
13	5 Jun 2026	Math	exam-07-ch8	Ch 8	11/12	34/33*	19/20	64/65	98.5%	A+
14	8 Jun 2026	Biology	exam-03-ch4	Ch 4	12/12	31.5/33	19/20	62.5/65	96.2%	A+
15	12 Jun 2026	Chemistry	exam-04-ch7	Ch 7	12/12	29/33	19/20	60/65	92.3%	A+
16 ▶	22 Jun 2026	Physics	exam-04-ch6	Ch 6	12/12	29/33	14.5/20	55.5/65	85.4%	A

* exam-13 Math: Section B had a bonus mark awarded (34/33). Row highlighted in gold = current new attempt.

Subject Averages (Updated)

Physics 94.6% — 4 exams (246/260)

Math 94.9% — 4 exams (246.5/260)

Biology 92.1% — 3 papers (best attempt per paper average)

Chemistry 92.7% — 4 exams (241/260)

Overall average: 89.8% across 16 attempts (933.5/1040 marks). Three perfect scores: Math-01, Bio-02 re-sit, Physics-03. MCQ overall: 202/204 (99.0%). Physics average drops from 98.3% to 94.6% with this attempt — still the highest subject but the margin over Math has narrowed to 0.1 percentage points.

MCQ Record by Subject

Subject	Exams	MCQ Total	MCQ Scored	MCQ %	Notes
Chemistry	4	48	48	100%	Perfect in all 4 Chemistry exams
Physics	4	48	48	100%	Perfect in all 4 Physics exams (incl. this attempt)
Biology	4 attempts	48	47	97.9%	1 miss on Bio-01 (exam 1); perfect on exams 8, 9, 14
Math	4	48	47	97.9%	1 miss on exam-13 (horizontal line gradient)

Overall	16	192	190	99.0%	Best streak: 11 consecutive 12/12 (exams 2-12); exams 14, 15, 16 all perfect
---------	----	-----	-----	-------	--

Recurring Weakness Patterns (Active)

Pattern	Subject	Status	Latest Instance
Renewable vs non-renewable definitions swapped — wrote non-renewable definition in the renewable column and vice versa in two separate questions on the same paper	Physics	NEW	Q.2(vi) and Q.3(iv), Physics exam-04-ch6, 2026-06-22. Affects both Section B and C in same paper. Drill fix: Renewable = replenished naturally at a fast rate (sun, wind, water always available). Non-renewable = took millions of years to form; finite stock.
Long answer sub-parts incomplete — answer stops before covering all required bullet points; Q.3(ii) missed electric cars comparison; Q.3(iv) missed environmental problems and reasons to shift to renewables	Physics	NEW	Q.3(ii) and Q.3(iv), Physics exam-04-ch6, 2026-06-22. Old pattern (seen in Chem-02, Bio-01) returning in Physics for first time. Fix: after finishing, re-read the full question and tick off each requirement.
Electron direction for oxidizing/reducing agents — "(they lose electrons)" written for oxidizing agent (should be gain); "(they gain electrons)" for reducing agent (should be lose)	Chemistry	ACTIVE	Q.3(ii)(a), exam-04-ch7, 2026-06-12
Sub-part label order — correct chemistry content placed under wrong (a)/(b)/(c)/(d) letters when questions ask for multiple items	Chemistry	ACTIVE	Q.2(vii), exam-04-ch7, 2026-06-12
Ionic equation notation — ions written without charges and state symbols in some equations	Chemistry	ACTIVE	exam-03-ch6, 2026-05-12
Atom count = moles × NA (not molar mass × NA) — three consecutive chemistry exams showed NA multiplied by molar mass instead of moles	Chemistry	ACTIVE	exam-03-ch6, 2026-05-12 (3rd occurrence)
Gradient of horizontal line = 0 (not −1); vertical line = undefined	Math	ACTIVE	exam-07-ch8 MCQ Q2, 2026-06-05
Centromere functional statement — karyokinesis answers lack "centromere splits at anaphase, allowing sister chromatids to separate"	Biology	ACTIVE	exam-03-ch4, 2026-06-08
Sum-of-cubes middle term — $a^3+b^3 = (a+b)(a^2-ab+b^2)$: middle term is −ab, not −2ab	Math	ACTIVE	exam-04-ch4, 2026-05-25
Mechanism behind concepts (Biology)	Biology	RESOLVED	Fixed from Bio exam-02 re-sit (2026-05-02)
